

IEP implementation, documented as it happens.

IEP Assure is a documentation and progress-monitoring platform for special education. Teachers capture services, accommodations and goal evidence in about a minute; leaders see what is delivered on every campus.

COMPANY FACTS

Legal name	IEP Assure, Inc.
Founded	2024
Business address	5900 Balcones Dr, Suite 100, Austin, TX 78731
NAICS codes	513210 Software Publishers 611710 Educational Support Services
Vendor ID, W-9	Available on request
Hosting	Google Cloud, United States
Contact	admin@iepassure.com Allie Wilson, Founder and CEO

CORE CAPABILITIES

- **Service and accommodation logs** in about a minute, from any device, including grouped sessions.
- **Goal evidence and progress reports** on six-week cycles, drafted from documented data for educator review.
- **PLAAFP drafts** built from what teachers have already entered.
- **Campus and district views** that surface missed or incomplete services early.
- **HB 2 readiness:** dashboards organized for the eight tiers of intensity of service.
- **Rollout and training:** live in about two weeks, with ongoing professional learning.

WHAT SETS US APART

Works alongside your IEP system

We do not replace your IEP writing system. We capture the day-to-day delivery it was not built to hold.

Educator-built, human-reviewed

AI drafts only from teacher-entered data. Every draft is reviewed and finalized by an educator.

Student data stays yours

FERPA school official. Never sold. Not used to train AI models. Signed DPA before any records move.

WHAT IEP ASSURE IS, AND IS NOT

It is

- A daily documentation layer for services, accommodations and goal evidence
- A progress-monitoring and reporting tool for teachers and leaders
- Training and professional learning from SpEd practitioners

It is not

- An IEP writing or eligibility system
- A tool that decides services, tiers or placement
- A replacement for educator judgment

Past performance: Mullin ISD, Texas. A small rural district that reached 89% documentation consistency across teachers in its first six weeks on IEP Assure, then used the six-week data to shape targeted training.

How to buy

Direct purchase, RFP response, or co-op purchasing. Ask which co-op contracts apply to your district. Co-op cost sharing for member districts.

See it on your district's workflow.
